

# LAB UPDATE

**EFFECTIVE DATE: September 24, 2020**

## UPDATE TO NORMAL RANGES

Mid America Clinical Laboratories, a Quest Diagnostics Company, will be making the following updates to normal ranges. These updates are being made to ensure reporting is in line with the most up to date standards of care and meet the needs of our physicians and hospital clients.

Gestational Glucose Tolerance Tests will have the following updated normal ranges as per the 2020 Standards of Care and the Carpenter-Coustan criteria:

Test Code	Description	Normal Range mg/dL
GLU1H / 8477	1 Hour 50G Screen	65-129
GTT2G / 10524	Fasting	65-92
	1 Hour 75 G Dose	65-180
	2 Hour	65-153
GTT3G / 6745	Fasting	65-95
	1 Hour 100G Dose	65-180
	2 Hour	65-155
	3 Hour	65-140

Testing performed at the following Hospital Laboratories will have the following update to Trough Vancomycin normal ranges:

Site	Description	Normal Range ug/mL
Community - East, Howard, North and South	Vancomycin, Trough	10.0-20.0
Acension St. Vincent - Anderson, Carmel, Clay, Dunn, Heart, Indianapolis, Jennings, Kokomo, Randolph, Salem, Women's
