

LAB UPDATE

EFFECTIVE DATE: November 16, 2020

Celiac and ANA Panels Test Changes

As part of our continuing transition under Quest Diagnostics, Celiac and certain ANA panel testing will no longer be performed at our Shadeland laboratory. Testing will be sent to Quest Wood Dale where testing is performed Monday thru Friday providing the same if not better turnaround time on results. The specimen collection requirements will not change.

Test Name	Current Test Code	New Test Code	Test Name	Current Test Code	New Test Code
Celiac Disease Comprehensive	15981YJI / CELPN	15981RCB / CELPN	Celiac Disease Comprehensive, Infant	19955YJI / CEPNL	19955RCB / CEPNL
Celiac Disease Panel without Gliadin	17612YJI / CEPWG	17612RCB / CEPWG			

Test Name	Current Test Code	Current Normal Range	New Test Code	New Normal Range
ANA Screen, IFA w/ Reflex Titer/Pattern/Rheumatoid Arthritis Panel	90071YJI / PANA1	ANA, IFA < 1:80, Negative > 1:80, Positive	90071RCB / PANA1	ANA, IFA < 1:40, Negative 1:40 – 1:80, Low antibody level > 1:80, Elevated antibody level
ANA Screen, IFA w/ Reflex Titer/Pattern/ Mixed Connective Panel	90074YJI / PANA4	ANA, IFA < 1:80, Negative > 1:80, Positive	90074RCB/ PANA4	ANA, IFA < 1:40, Negative 1:40 – 1:80, Low antibody level > 1:80, Elevated antibody level

**Additional ANA information can be found at: https://testdirectory.questdiagnostics.com/test/test-guides/CF_Autoimmune_Rheumatic_Diseases/autoimmune-rheumatic-and-related-diseases?p=td

This information will also be available on the MACL website under the Lab Updates section for Providers: <https://www.maclonline.com/category/lab-updates>.
